

Staburo GmbH is a data science company, specialized in statistical consulting, data science and bioinformatics for healthcare projects. Our core competencies include Clinical Statistics, Translational Medicine & Biomarkers, Phase I & Pharmacokinetics/-Dynamics, Data Transparency, Health Technology Assessment and Bioinformatics. Our customers are international pharmaceutical companies (7 of the top 20), CROs, biotech companies and medical device manufacturers. Our steadily growing team of 45 experts supports our clients efficiently from study design to data analysis and finally the disclosure and posting of trial results.

To expand our team in Munich (remote possible), we are looking for a

Senior Data Scientist in clinical research (f/m/d)

Your responsibilities will include:

- Planning studies including sample size calculation
- Creation of statistical analysis plans and the study designs
- Evaluation of clinical studies of phases I - IV and presentation of the results
- Strong expertise in R programming (or SAS)
- Program validation of clinical trials
- Contact person for our employees and customers

Your profile:

- University degree in data science, statistics, mathematics, or comparable studies
- Very good methodological knowledge in the field of clinical statistics
- More than 2 years of professional experience as a statistician with responsibility for clinical studies
- Very good IT expertise, especially with statistical analysis tools (R required, SAS is a plus)
- Precise and accurate way of working as well as strong analytical and quick learning skills
- Team player with high degree of initiative
- Good English skills, German is an advantage

What we offer you:

We value communication, flat hierarchies, open corporate culture, and a harmonious work environment. We offer comprehensive individual development opportunities, continuous trainings, and flexible working hours. A modern and bright office, as well as the opportunity to work from home are part of our everyday working life. You will join an interdisciplinary team allowing you to discuss with and learn from peers with many different backgrounds.
