

Architecture (B.A.)

Faculty of Architecture, Engineering and Conservation
Examination Regulations 2026

Module Overview

- Project 1: Compact
- Architectural and Cultural History
- Building Materials Science 1
- Structural Engineering 1
- Building Construction 1
- Project 2: Live
- 2D/3D Digital Representations
- Building Materials Science 2
- Structural Engineering 2
- Building Construction 2, Building Physics 1
- Project 3: Hybrid
- Urban Planning 1
- Building Services Engineering 1
- Structural Engineering 3
- Building Construction 3, Building Physics 2
- Project 4: Construction
- Urban Planning 2 and Regional Construction
- Construction Economics, Building Law 1
- Building Services Engineering 2
- Building Construction 4
- Project 5: Inventory
- Design, Visualization
- Construction Economics, Building Law 2
- Energy-Efficient Construction
- Architecture Workshop
- Preparatory Module Bachelor's Thesis
- Customized Degree Program (HAWK plus)
- Bachelor's Thesis
